

Suhyeon Lee

School of Management Engineering, KAIST College of Business
Seoul, Republic of Korea

suhyeonlee@kaist.ac.kr · [Google Scholar](#) · [Homepage](#)

RESEARCH INTERESTS

AI Agents and Digital Markets; Human–AI Decision Making; AI Governance and Digital Platforms

Methods: Causal Inference; Experiments; LLM-based Behavioral Simulation

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST), Seoul, Korea

Ph.D. in Management Engineering

2026 – 2029 (exp.)

M.S. in Management Engineering

Feb. 2026

Advisor: Prof. Donghyuk Shin

Carnegie Mellon University, Pittsburgh, USA

Visiting Student, AI Intensive Program

Dec. 2024 – Jul. 2025

Hankuk University of Foreign Studies, Seoul, Korea

B.B.A.; B.S. in Computer & Electronic System Engineering

Feb. 2024

Exchange Student, Eastern New Mexico University, USA

Jan. – Jun. 2022

PUBLICATIONS – COMPUTER SCIENCE

1. Juneha Baek, **Suhyeon Lee**, and Donghyuk Shin. “How You Ask Shapes What You Get: A Theory-Seeded Measurement of Articulation in Advice-Seeking LLM Conversations.” *In Findings of the Association for Computational Linguistics: EMNLP*, 2026 (forthcoming)
2. **Suhyeon Lee**, Juneha Baek, Jaehyeong Park, and Donghyuk Shin. “LLM Pedagogical Behavior in AI Tutoring Interactions.” *In Findings of the Association for Computational Linguistics: EMNLP*, 2026 (forthcoming)
3. **Suhyeon Lee**, Youngjun Yu, Donghyuk Shin, and Rita Singh. “PlaceSim: An LLM-based Interactive Platform for Human Behavior Simulation in Physical Facilities.” *In Proceedings of the ACM International Conference on Information and Knowledge Management (CIKM)*, 2025. [doi:10.1145/3746252.3761461](https://doi.org/10.1145/3746252.3761461)

WORKING PAPERS

1. **Suhyeon Lee**, Donghyuk Shin, and Sang Pil Han. “When the Buyer Is a Machine: The Diagnosticity–Exploration Tradeoff in Agentic Commerce.” *In preparation for submission to Information Systems Research*
 - Accepted for presentation at ICIS 2026, Lisbon, Portugal
 - Accepted for presentation at INFORMS CIST 2026
2. Jane Shin, **Suhyeon Lee**, Donghyuk Shin, and Wonseok Oh. “Regulating AI-Generated Content: When Do Restrictions Spark or Stifle Community Dynamics?” *In preparation for submission to MIS Quarterly*
 - Best Student Paper Award, KMIS Conference, 2025
 - Best Student Paper Nominee, Workshop on Information Systems and Economics (WISE), 2025
3. **Suhyeon Lee**, Seohyun Kim, and Donghyuk Shin. “The Summarization Paradox: AI Summarization and Creator Multimodal Content Strategies.” *In preparation for submission to Journal of the Association for Information Systems*
 - Earlier version presented at the KrAIS Summer Workshop, 2026

4. **Suhyeon Lee**, Youngjun Yu, and Donghyuk Shin. “Predicting Spatial Choice Without Historical Data: A Theory-Guided LLM Simulation Framework.”
 - Earlier version published at CIKM 2025

WORK IN PROGRESS

1. **Suhyeon Lee**, Juhyeon Lee, Youngik Lee, Minki Kim, and Donghyuk Shin. “Whose Agent Is It? Consumer- vs. Seller-Side AI Agents and Consumer Delegation”
 - Research-in-progress paper submitted to WITS 2026
2. Myungsu Kwak, **Suhyeon Lee**, and Donghyuk Shin. “Synthetic Personas as Hypothesis Spaces: Grounding Latent Consumer Contexts in Real Purchase Behavior.”
 - Submitted to the SocialAgent Workshop at NeurIPS 2026

OTHER PUBLICATIONS

1. **Suhyeon Lee**, Youngwon Suh, Sein Kim, Jaekyung Lee, and Wonjoo Yun. “Machine Learning based Optimal Location Modeling for Children’s Smart Pedestrian Crosswalk: A Case Study of Changwon-si.” *KIBIM Magazine*, 12(2), 1–11, 2022. (in Korean, KCI)
2. Youngwon Suh, **Suhyeon Lee**, Sooyeon Jung, Dream Jung, and Wonjoo Yun. “The Impact of Healthfulness on Firm Performance: The Case of Food Companies in South Korea.” *Journal of Product Research*, 39(4), 57–65, 2021. (in Korean, KCI)

GRANTS AND FUNDING

Doctoral Student Research Grant	2026 – 2028
National Research Foundation of Korea (NRF).	
KAIST AI Education Innovation Project	2024
PaperFlow: An LLM-Driven Academic Paper Analysis Platform.	

HONORS, AWARDS, AND FELLOWSHIPS

Doctoral Fellowship for Excellence in Science and Engineering	2026 – 2029
Korea Student Aid Foundation. Nationally competitive, four-year fellowship.	
Best Student Paper Award	2025
KMIS Conference.	
AI Intensive Program Fellowship	2024 – 2025
Carnegie Mellon University. Funded by the Ministry of Science and ICT (MSIT), Republic of Korea.	
National Scholarship for Humanities and Social Sciences	2021 – 2024
Korea Student Aid Foundation. Nationally competitive, four-year undergraduate scholarship.	

CONFERENCE PRESENTATIONS

1. “When the Buyer Is a Machine: The Diagnosticity–Exploration Tradeoff in Agentic Commerce” (first author). International Conference on Information Systems (ICIS), 2026; INFORMS Conference on Information Systems and Technology (CIST), 2026. *Forthcoming*.
2. “The Summarization Paradox: AI Summarization and Creator Multimodal Content Strategies” (first author). KrAIS Summer Workshop, 2026.
3. “Regulating AI-Generated Content: When Do Restrictions Spark or Stifle Community Dynamics?” (second author). Workshop on Information Systems and Economics (WISE), 2025 (*Best Student Paper Nominee*); KMIS Conference, 2025 (*Best Student Paper Award*).

4. “PlaceSim: An LLM-based Interactive Platform for Human Behavior Simulation in Physical Facilities” (first author). ACM International Conference on Information and Knowledge Management (CIKM), 2025.
5. “Dynamics of Online WOM and Performance: The Differential Role of Social Media Platforms” (equal contribution). ISMS Marketing Science Conference, 2025; AMA Winter Academic Conference, 2022.
6. “Does Regulation Work as Intended? Impact of COVID-19 on Online Game Consumption” (first author). International Conference of Asian Marketing Associations (ICAMA), 2022.
7. “The Impact of Healthfulness and Front-of-Package (FOP) Labels on Brand Performance” (second author). AMA Marketing and Public Policy Conference, 2021.

TEACHING EXPERIENCE

Teaching Assistant, KAIST College of Business

Social Media and Network Analysis (50 students)	Spring 2026
Cloud Environments and Network Management (20 students)	Spring 2026
AI Business Strategy (28 students)	Winter 2025
Financial Accounting (46 students)	Summer 2024
Financial Databases (68 students)	Summer 2024

Teaching Assistant, KAIST-Seoul City Python Education Program

Python Programming for Adult Learners (90 learners)	Spring 2024
---	-------------

SERVICE AND OUTREACH

Ad-Hoc Referee

INFORMS Conference on Information Systems and Technology (CIST)	2026
---	------

Mentoring and Outreach

Student Mentor, KOICA-KAIST MBA Program, KAIST College of Business	2024
Supported graduate students from developing countries sponsored by the Korea International Cooperation Agency (KOICA).	

INDUSTRY EXPERIENCE

Researcher, AI Team, Pintel, Seoul, Korea	2023 – 2024
Intern, Data Science Team, MINDs and Company, Seoul, Korea	2023

SKILLS

<i>Technical</i>	Python, R, STATA, SQL, C/C++, $\text{\LaTeX}$
<i>Languages</i>	Korean (native), English (fluent)
